VIORA *Life*

In addition to the crow's feet around my eyes, and the wrinkles on my forehead, my hands were really starting to show my age. After speaking with my doctor, I started treatments with Viora and I'm feeling, and looking, years younger!

JANICE

POPULAR TREATMENT AREAS:

V-ST YOUR QUESTIONS ANSWERED

- **What skin types are treatable?**
  Due to Viora's advanced CORE technology and the use of RF energy, all skin types can be treated.
- **Which areas can be treated?**
  With the ability to target different depths in the skin, Viora's RF treatments for ST and wrinkle reduction can address every facial and body part, including areas traditionally difficult to treat, such as hands, décolleté, and bony areas like the forehead.
- **How long do treatments take?**
  Treatment sessions range between 10 and 30 minutes. Exact treatment time depends upon the specific application, each individual patient's condition, and the specific area that is being targeted for treatment.
- **Are treatments painful?**
  Viora's contact cooling system provides the most comfortable experiences possible. And with the ability to target different levels of skin, you'll never receive more energy than is actually needed.
- **How many treatment sessions will I need?**
  Typically the number of treatment sessions range from 3-6 treatments, depending upon the actual application needed, and each patient. Please consult with your practitioner to better understand your individual needs.
- **When will I see results?**
  While each person is different, results for Viora's RF treatments are visible after the first session.
- **How long do the results last?**
  One maintenance session is generally recommended every 3-6 months, or as required. Your practitioner can advise the best interval time, for your specific needs.

OUR TECHNOLOGY GOES DEEP

With Viora's revolutionary **CORE technology**, non-invasive RF treatments for loose and sagging skin have been transformed. CORE gently heats your skin's underlying network of collagen and elastin fibers. This action causes the fibers to shrink, restoring your skin's elasticity and leaving you with a tighter, smoother appearance. Variable energy levels are delivered via four unique channels, ensuring your treatments are the most effective possible. Every V-ST procedure is personalized per patient, treatment area, and specific symptoms and needs. Viora's ST treatments can be received year-round—even with tanned skin—and it is safe and effective for all skin types on any part of the face or body.

SCHEDULE YOUR VIORA V-ST TREATMENT TODAY!

While I was pregnant, I watched the skin on my stomach stretch and I was convinced that I'd have those ugly marks forever. I had Viora's skin treatments and now I can't wait to wear my bikini at the beach, playing with my little girl!"

ELISA

"In the last two years, the fine lines around the contours of my mouth had really deepened and made my very self conscious. I've just started Viora skin treatments and I'm very happy with the results. My skin just feels firm and plumper and I can really see the difference, which means I'm not ashamed to smile and that means a lot."
